PROFESSIONAL SUMMARY

Full Stack Developer with experience building scalable web applications and production-ready software using React.js, .NET, PostgreSQL, and modern frontend technologies. Skilled in developing responsive user interfaces, RESTful APIs, and maintainable backend systems within Agile development environments. Strong understanding of clean architecture, performance optimization, and user-focused application design across web and mobile platforms.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, C#, Python

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: .NET, Node.js, Express.js, RESTful APIs

Mobile: Flutter, React Native

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Tools / Platforms: Git, GitHub, Firebase, Postman

WORK EXPERIENCE

Junior Full Stack Developer

Feb 2025 – Present

Exotrac LLC

- Developed and deployed scalable full-stack features for a Yard Management System using .NET, React.js, and PostgreSQL, improving overall system performance.
- Collaborated with 5+ cross-functional team members to design, optimize, and deploy RESTful APIs and responsive interfaces in production.

Full Stack Developer Intern

Aug 2024 – Feb 2025

Exotrac LLC

- Built RESTful APIs and dynamic frontend components using .NET and React.js.
- Contributed to production-level features and followed Agile development practices.
- Applied Git/GitHub version control for collaborative development and code management.

PROJECTS

Yard Management System

2025

React.js, .NET, PostgreSQL, RESTful APIs

- Developed a full-stack yard operations management system using React.js, .NET, and PostgreSQL, improving data handling efficiency and system performance.
- Designed responsive UI and integrated RESTful APIs with Clean Architecture principles for a scalable and maintainable codebase. ***View GitHub Repository***

Resume Builder (RamroCV) 2026

React.js, TypeScript, Tailwind CSS, LocalStorage, GitHub Pages

- Built a dynamic resume builder with real-time preview using React.js and reusable TypeScript components for customizable CV generation.
- Implemented persistent storage using LocalStorage and deployed the application on GitHub Pages for public access. ***View Live Demo***

E-commerce Website 2025

Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Vercel

- Developed a responsive e-commerce frontend with product listing, cart management, and checkout flow using Next.js and Redux Toolkit.
- Implemented dynamic routing, dark mode, and UI animations with Framer Motion, deployed on Vercel for production use. ***View Live Demo***

Netflix Clone - NflixNepal 2024

React.js, Tailwind CSS, TMDB API, Firebase

- Built a Netflix-inspired streaming UI using React.js with TMDB API integration for dynamic movies and TV show data.
- Implemented responsive design, category-based browsing, and deployed the project using Firebase Hosting. ***View Live Demo***

BiruwaSmart – AI Plant Identification App 2023

Flutter, Django, TensorFlow, CNN

- Developed a mobile app using TensorFlow CNN model for plant species identification with AI-based classification.
- Built backend APIs using Django and integrated authentication, e-commerce features, and chatbot-based user assistance. ***View GitHub Repository***

EDUCATION

Tribhuvan University 2021 – 2026

B.Sc. in Computer Science and Information Technology

Kathmandu Model Secondary School 2019 – 2021

Higher Secondary Education (Science)

ACHIEVEMENTS

- Received **KCT Diligence Award 2026** from Kathmandu College of Technology for consistent dedication and academic excellence.
- Published technical blogs sharing development experiences and insights: [Visit Blog](#).
