SUMMARY

Full Stack Developer with hands-on experience building scalable web and mobile applications. Proficient in React.js, .NET, Django, and Flutter with expertise in REST API development, API integration, and responsive UI design. Familiar with Agile methodologies and focused on creating efficient, maintainable systems.

EDUCATION

Tribhuvan University

2021 – Present

B.Sc. in Computer Science and Information Technology

Kathmandu Model Secondary School

2019 – 2021

Higher Secondary Education (Science)

TECHNICAL SKILLS

Programming Languages: C#, Python, JavaScript, C, C++, Dart, SQL

Frontend: HTML, CSS, Tailwind CSS, React.js, Redux, Responsive Design

Backend: .NET, Django, REST API Development

Mobile: Flutter, Riverpod

Databases: PostgreSQL, MySQL, SQLite, Firebase, Firestore

Machine Learning / AI: TensorFlow, NumPy, CNN Models

Tools / Platforms: Git, GitHub, Postman, Swagger, Linux, VS Code, Visual Studio

WORK EXPERIENCE

Junior Full Stack Developer

Feb 2025 – Present

Exotrac LLC

- Lead development of scalable full-stack features for a Yard Management System using .NET, React.js, and PostgreSQL, improving system performance and usability.
- Collaborated with cross-functional teams to design, optimize, and deploy RESTful APIs and responsive interfaces in production.

Full Stack Developer Intern

Aug 2024 – Feb 2025

Exotrac LLC

- Built REST APIs and dynamic frontend components for the Yard Management System using .NET and React.js.
- Gained experience in database management, API testing, and version control using PostgreSQL, Postman, and Git/GitHub.

PROJECTS

Yard Management System

2025

.NET, React.js, PostgreSQL

- Built a scalable full-stack system to manage yard operations with optimized PostgreSQL queries, improving data processing efficiency.
- Developed RESTful APIs and a responsive React.js UI for a seamless user experience.
- Applied Clean Architecture to ensure maintainable and testable code.

BiruwaSmart – AI Plant Identification and E-commerce App

2025

Flutter, Django, TensorFlow, CNN Model

- Developed an AI-powered mobile app that identifies plant species and detects diseases using TensorFlow CNN models.
- Built a plant e-commerce platform with secure user authentication and product management via Django REST APIs.
- Implemented Riverpod for scalable state management and integrated a chatbot for user guidance.

Weather Forecast App

2024

React.js, OpenWeather API, HTML, CSS

- Developed a real-time weather web application using OpenWeather API with city search and dynamic weather display.
- Designed a responsive, mobile-friendly interface for improved usability.

Portfolio Website

2024

React.js, HTML, CSS

- Created a personal portfolio website showcasing projects and technical skills.
- Deployed live at www.sharonkadariya.com.np.

Virtual Queue Management System

2023

Django, HTML, CSS, JavaScript, SQLite

- Developed a web platform to manage service queues efficiently using Django and SQLite.
- Designed a responsive interface to enhance user interaction and accessibility.

ACHIEVEMENTS

- Promoted from Full Stack Developer Intern to Junior Full Stack Developer at Exotrac LLC.
- Read my insightful blogs where I share development experiences and technical insights:
